

Injury Prevention in the School Environment

Safe behavior... a safer school environment

"Injury prevention starts with awareness, commitment, and early reporting of hazards"

Why do we talk about school injuries?

Any unsafe behavior may lead to a preventable injury

Protecting safety

Of students and staff

Reducing accidents

In school facilities

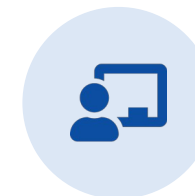

A safe environment

Educational and organized

Responsible behavior

Among students

Supporting teachers

In managing movement

Remember: Prevention begins before an accident, not after

Common injuries in the school environment

Caused by rushing, rough play, or ignoring instructions

Falls in corridors

Collisions with
classmates

Minor cuts

Bruises and
contusions

Sports activity
injuries

Tripping over
bags

Tool-related
injuries

Laboratory
injuries

Awareness message: Organized and conscious behavior reduces most everyday injuries

Safety in school corridors

Corridors are for movement, not for running or playing

**Walk calmly
and steadily**

**Stay on the
designated
path**

**Do not run
between
classes**

**Do not push
classmates**

**Do not stop in
the middle of
corridors**

**Do not leave
bags in the
walkway**

**Be careful at
corners and
doors**

Key rule: An organized corridor eases daily movement and supports faster evacuation

Safety on stairs

Requires high attention, as rushing may cause injuries

Don't ✕

Do not run on the stairs

1

Do not push classmates

2

Do not sit on the steps

3

Do not use your phone

4

Do not stand at the top or bottom of the stairs

5

Do ✓

Always use the handrail

1

Go up and down calmly

2

Keep a safe distance

3

Watch your steps

4

Report any obstacle

5

Safety inside classrooms

Order helps prevent injuries

Sit properly

**Do not rock on
your chair**

**Do not throw
school supplies**

**Place your bag
in a safe spot**

**Use sharp tools
carefully**

**Stay away from
electrical
outlets**

**Report any
damage**

Message: An organized classroom provides a safe and comfortable learning environment for everyone

Safety in playgrounds and courtyards

Safe play keeps the fun and prevents injuries

Make sure the area is clear of obstacles

Wear suitable shoes

Follow the teacher's instructions

Avoid roughness and pushing

Do not trip your classmates

Use equipment properly

Stop if you feel pain or tired

Tell the teacher if you get injured

Awareness message: Safe play keeps the fun and prevents injuries

Preventing trips and falls

Small causes can lead to serious injuries

Avoid running between classes

1

Report broken tiles

2

Maintain proper lighting

3

Keep corridors free of obstacles

4

Do not leave bags in the walkway

5

Report spills and wet floors

6

Be alert in crowded areas

7

Remember: Reporting a small hazard can prevent a major injury

Safety when using school supplies

Some tools require extra care

Scissors

Stapler

Art tools

Sports
equipment

Laboratory
tools

Electrical
devices

Breakable
glass

Guidance: Use tools only for their intended purpose, and report any damage

What do you do if an injury occurs?

Stay calm and inform the staff immediately

Do not give first aid without guidance

5

Follow the teacher's or nurse's instructions

6

Call 999 in emergencies

7

Stay calm

1

Tell the teacher or supervisor

2

Do not move the injured person

3

Keep students away from the scene

4

Important message: Proper help begins with quick reporting, not random action

Do and Don't

Right practices and ones to avoid

Don't ×

Do not run in corridors

1

Do not push classmates

2

Do not tamper with tools

3

Do not leave your bag in the walkway

4

Do not ignore spills

5

Do not crowd around the injured

6

Do ✓

Walk calmly inside the school

1

Use the stairs safely

2

Keep your belongings organized

3

Follow the teachers' instructions

4

Use tools carefully

5

Report any hazard immediately

6

Interactive Scenarios

Practical application of what you learned

Scenario 1 You see liquid on the corridor floor

Correct action: Move away from the spot and inform the teacher or supervisor immediately

Scenario 2 A classmate fell on the stairs and is in severe pain

Correct action: Do not move them, inform the teacher immediately, and keep students away from the scene

Scenario 3 You see a bag blocking the walkway

Correct action: Inform the owner or teacher to move it out of the way

Scenario 4 A student is running and pushing classmates between classes

Correct action: Move away from the crowd and inform the supervisor

Test your knowledge

Quick questions to assess your understanding

Q1: Are corridors a suitable place to run?

Answer: No, corridors are only for safe movement

Q2: What do you do if you see a wet floor?

Answer: Move away from the spot and inform the supervisor immediately

Q3: Should you move a classmate who fell and is seriously injured?

Answer: No, inform the teacher or supervisor right away

Q4: Why shouldn't we leave bags in corridors?

Answer: Because they can cause tripping and block movement

Q5: What is the best way to prevent injuries?

Answer: Following instructions, staying alert, and reporting hazards

Thank you

Injury prevention is everyone's responsibility

Walk calmly • Don't push • Stay organized • Use tools carefully • Report hazards

"Your safety begins with your awareness and daily behavior"
