

Safety with Candles and Light Decorations

Safe beauty... and ongoing prevention

"Decorations and candles add beauty, but using them safely requires attention and care"

Why is candle and decoration safety important?

They are used at events and may become a source of danger

Fire prevention

Home fires

Protecting children

And family members

Reducing burns

From flames and heat

Preventing faults

In decoration wiring

Protecting property

And furniture

Remember: Safe decoration adds beauty without adding risks

Top potential hazards

Accidents from unsafe candle and decoration use

Leaving candles unattended

Near curtains and furniture

Unstable candle holder

Children approaching flames

Damaged decorations

Overloading outlets

Running decorations for long periods

Indoor decorations used outside

Message: Every decoration needs safe use and ongoing monitoring

Safety when using candles

Open flames require constant monitoring

**Place them on
a stable
surface**

**A non-
flammable
holder**

**Keep them
away from
curtains**

**Do not leave
them
unattended**

**Put them out
before
sleeping**

**Not in walking
paths**

**Keep them
away from
children**

Remember: An open flame requires constant monitoring

Safer alternatives to candles

Reduce flame risks inside the home

Electronic candles

Approved and safe

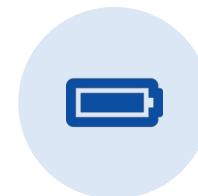

Soft lighting

Low heat

Safe decoration

For indoor use

Emergency lights

Rechargeable

LED lights

Of certified quality

Message: Choosing a safe alternative reduces fire and burn risks

Safety when using light decorations

Need inspection and safe use

**Quality-
certified
decorations**

**Inspect before
use**

**Do not use
damaged ones**

**Do not
overload
outlets**

**No cords under
carpets**

**Unplug them
before
sleeping**

**Keep them
away from heat**

Remember: Inspection before use helps prevent electrical risks

Indoor and outdoor decorations

Each type has its proper place

Indoor only for inside

Outdoor for suitable locations

Protect outdoor ones from water

No electricity in damp areas

Secure them safely

Not in walking paths

Message: Choosing the right decoration for the location reduces electrical and fire risks

Protecting children inside the home

They are drawn to candles and decorations

**Keep candles and lighters
away**

**Don't leave them
unsupervised**

Keep wires away from them

**No operation without
supervision**

Store batteries safely

Teach them not to touch

Remember: Protecting children starts by keeping hazards out of reach

Warning signs to watch for

Signs of an electrical hazard

Burning smell

**Heat in the
plug**

**Damaged
wiring**

**Unusual
flickering**

Unusual sound

**Discoloration
of the plug**

**Unstable
operation**

Correct action: Stop use safely, disconnect the source, and request inspection or replacement

What to do during a fire or smoke

Act quickly and calmly

Use the extinguisher if trained

5

Leave if the fire spreads

6

Call 999

7

Stay calm

1

Move family members away

2

Cut the power safely

3

No water on electrical fires

4

Important message: Life safety first; don't delay evacuation to save property

Do and Don't

Right practices and ones to avoid

Don't ×

Don't leave candles unattended

1

Not near curtains and furniture

2

No damaged decorations

3

Do not overload outlets

4

No cords under carpets

5

No water on electrical fires

6

6

Interactive Scenarios

Practical application of what you learned

Scenario 1 The light decoration wiring is damaged

Correct action: Stop using them immediately and replace with a safe product

Scenario 2 A lit candle near a curtain

Correct action: Put it out or move it to a safe spot away from flammables

Scenario 3 Unusual heat in a connection

Correct action: Unplug it safely and stop using it

Scenario 4 The family wants to leave decorations on while sleeping

Correct action: They must be unplugged before sleeping or leaving the home

Test your knowledge

Quick questions to assess your understanding

Q1: Is it allowed to leave candles lit unattended?

Answer: No, they must be put out before leaving the room or sleeping

Q2: What do you do if light decorations are damaged?

Answer: Stop using them and replace with a safe product

Q3: Is water allowed on electrical fires?

Answer: No, because it can increase the risk of electric shock

Q4: Why shouldn't you run cords under carpets?

Answer: Because they can be damaged or overheat without being noticed

Q5: What's the best step before using light decorations?

Answer: Inspect the wiring and plugs to ensure they're safe

Thank you

Candle and decoration safety is everyone's responsibility

Don't leave candles • Unplug before sleeping • Certified products • Keep children away • 999
