

Safety When Using Grills

Safe Grilling... and Fire Prevention

"Using grills requires constant attention and monitoring, as negligence can lead to fires, injuries, or suffocation"

Why Do We Care About Grill Safety?

Negligence can turn a family barbecue into a serious accident

Fire Prevention

in Homes, Camps, and
Parks

Protecting Children

and Family Members
from Accidents

Reducing Burns

from Charcoal and Hot
Tools

Preventing Suffocation

and Carbon Monoxide

Site Safety

and Surrounding
Facilities

Preventing Fire Spread

to Trees and Tents

Remember: Safe grilling starts with choosing the right location

Key Grill Hazards

The grill can become a source of danger when used improperly

Burns from charcoal or hot tools

5

Smoke spreading in unventilated areas

6

Using highly flammable materials

7

Placing the grill near tents and trees

8

Fire igniting near flammable materials

1

Using the grill in closed spaces

2

Leaving charcoal or embers unextinguished

3

Children approaching the grill

4

Message: Danger comes not only from flames, but also from embers, smoke, and heat

Choosing the Right Location for Grilling

Choosing the grilling spot is one of the most important steps in fire prevention

Use
designated
areas

An open, well-
ventilated area

Stay away from
tents and
vehicles

Avoid dry grass

Don't place it
in walkways

Place it on a
stable surface

Leave a safe
space around it

Remember: An unsuitable location can turn the grill into a fire source

Grills Inside Closed Spaces

Major risk: carbon monoxide buildup, suffocation, and fire

Don't use inside the home

Don't use inside the tent

Don't use in the garage

Don't use in a poorly ventilated area

Don't move charcoal into a closed space

Don't sleep near charcoal or embers

Important Message: Grills and charcoal belong outdoors only

Lighting the Grill Safely

Some actions can lead to a sudden flare-up

Use safe lighting tools

Avoid materials not meant for it

Don't add fuel to burning charcoal

Keep your face and hands away from the flame

Keep children away during lighting

Don't leave the grill while lighting it

Keep an extinguishing tool nearby

Remember: Careless lighting can lead to injuries or fire spread

While Using the Grill

Continuously monitor the grill and never leave it unattended

Keep flammable materials away

5

Don't move the grill while it's hot

6

Be aware of the wind and smoke direction

7

Keep plastic away from the heat

8

Don't leave the grill unattended

1

Keep children at a safe distance

2

Use long grilling tools

3

Avoid loose clothing near the flame

4

Message: Monitoring the grill at all times prevents most accidents

Protecting Children During Grilling

Children may approach the grill out of curiosity

**Keep them
away from the
heat source**

**Don't allow
playing near
the charcoal**

**Don't leave hot
tools within
their reach**

**Teach them
that the grill
stays hot**

**Assign an adult
to watch them**

**Don't carry a
child near the
grill**

**Keep lighters
away from
children**

Remember: The grill can stay hot for a long time after the flame is out

Burn Prevention

Burns can result from touching the grill, charcoal, or hot tools

Use heat-resistant gloves

Grilling tools with long handles

Don't touch the charcoal directly

Beware of steam from the lid

Keep pots away from the edges

Safe spots for hot tools

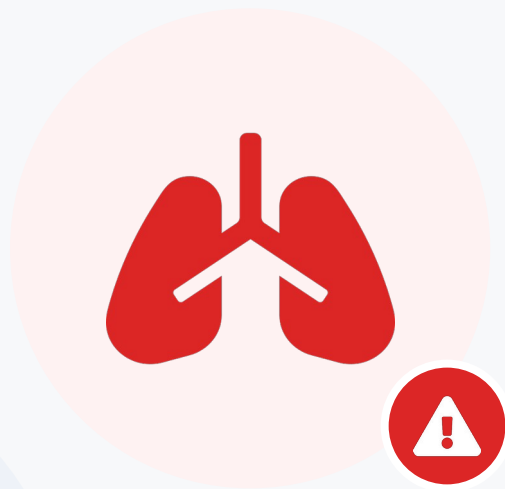

Let the grill cool before moving it

Message: Handling heat requires suitable tools and constant attention

Protection from Smoke and Carbon Monoxide

A colorless, odorless gas; prevention is essential

Use the grill in an open area

1

Don't use charcoal inside tents or vehicles

2

Don't sit in the path of the smoke for long

3

Keep the grill away from windows and entrances

4

Leave immediately if you feel a headache or dizziness

5

Don't move embers into a closed space

6

Important Message: Good ventilation is essential when using charcoal or grills

Extinguishing Charcoal and Embers After Use

Embers can remain hot and burning for a long time

**Don't leave
embers
unattended**

**Extinguish it
with water or
sand**

**Make sure the
smoke has
stopped**

**Don't throw
charcoal in the
bins**

**Keep embers
away from
trees**

**Don't move the
grill while it's
hot**

**Clean the site
after finishing**

Remember: Leftover embers can cause a fire even after you leave the site

Grilling in Parks and Public Areas

Following the instructions of the authority responsible for the site

**Use
designated
areas only**

**Don't light fire
near trees**

**Don't leave
waste at the
site**

**Follow the
guidance signs**

**Don't block
walkways and
exits**

**Notify officials
in case of fire**

**Respect the
safety of other
visitors**

Message: A public place is a shared responsibility, and compliance keeps everyone safe

What Do You Do When a Fire Breaks Out?

Act quickly and calmly without putting yourself at risk

Quick Steps During a Fire:

Call 999 from a safe place

Stop the source of danger
if possible

Keep children away from
the site

Stay calm

Use a suitable
extinguishing
tool

Don't move the
burning grill

Move away if
the fire spreads

Call 999 from a
safe location

Important Message: Saving lives is more important than trying to control a fire that's out of control

Do's and Don'ts When Using Grills

Correct Practices and Others to Avoid

Don't ×

Don't use the grill in a closed space

1

Don't leave the grill unattended

2

Don't add fuel to burning charcoal

3

Don't move the grill while it's hot

4

Don't throw hot charcoal in the bins

5

Don't leave before confirming the danger is gone

6

Do ✓

Use the grill in an open, designated area

1

Keep it away from tents, vehicles, and trees

2

Monitor the grill throughout use

3

Keep children away from the heat

4

Prepare a suitable extinguishing tool

5

Extinguish charcoal and embers completely

6

Interactive Scenarios

Practical Application of What You've Learned

Scenario 2

A child approaches the grill while the charcoal is burning

Correct Action: Move them away immediately and set up a safe zone around the grill

Scenario 1

Someone wants to use the grill inside the tent because of the wind

Correct Action: Don't use it inside the tent; choose a safe outdoor spot or postpone the grilling

Scenario 4

The fire started spreading from the grill to the grass

Correct Action: Move everyone away, use an extinguishing tool if possible, and call emergency services

Scenario 3

Hot embers remained after finishing the grilling

Correct Action: Extinguish it completely and make sure it's cool before leaving

Test Your Knowledge

Quick Questions to Assess Your Understanding

Q1: Is it allowed to use the grill inside the tent?

Answer: No, it may cause a fire or carbon monoxide poisoning

Q2: Where should the grill be placed?

Answer: In an open, designated place, away from flammable materials

Q3: Is it allowed to leave embers after finishing the grilling?

Answer: No, it must be fully extinguished and the heat confirmed gone

Q4: Why should children be kept away from the grill?

Answer: To protect them from burns and the dangers of fire and hot tools

Q5: What do you do if the fire starts to spread?

Answer: I move away from the site, keep others away, and call 999

Thank You

Safety when using grills is everyone's responsibility

Open area • Away from tents • Constant monitoring • Extinguish embers • In emergencies call 999

"Safe grilling means better moments and greater protection for everyone"
