

Safety During Hunting Season

Safe Practice... and Awareness of Risks

"Safety during hunting season begins with following the laws, good preparation, and respecting the environment and hunting sites"

Why Do We Care About Safety During Hunting Season?

Hunting in open areas requires preparation and awareness of risks

Preventing Injuries

and Accidents at the Site

Protecting Children

and Trip Companions

Reducing Getting Lost

and Exhaustion in the Desert

Fire Prevention

in Desert Areas

Protecting the Environment

and Wildlife

Compliance with the Laws

and Approved Instructions

Remember: Following the instructions makes hunting season safer and more organized

Before Going Hunting

Preparing before going out helps reduce risks

Make sure the vehicle is ready before the trip

5

Prepare sufficient water and food

6

Carry a first aid kit

7

Charge devices and provide backup power

8

Make sure hunting is permitted at the location and time

1

Comply with the required laws and permits

2

Tell a close person your location and return time

3

Monitor the weather conditions and official alerts

4

Message: A safe trip starts with advance planning

Choosing the Hunting Site Safely

An unsuitable site can turn the trip into an emergency

Choose a permitted site

Avoid dangerous areas

Stay away from vehicle paths

Stay away from residential areas

Don't enter prohibited sites

Watch for slopes and pits

Set a meeting point for the group

Remember: Choosing a suitable, safe site reduces the chances of accidents and getting lost

Compliance with Laws and Instructions

The laws protect people, the environment, and wildlife

Stick to the permitted seasons

Avoid prohibited areas

Comply with the allowed species and quantities

Don't harm wildlife

Don't leave waste at the site

Follow the instructions of the competent authorities

Report any violation

Message: Responsible hunting preserves safety and the environment for future generations

Safety of the Group and Companions

An organized group reduces the risks of getting lost and accidents

**Don't move
alone**

**Agree on a
meeting point**

Stay in contact

**Don't go far
without
informing
others**

**Supervise
children
continuously**

**Assign
someone to
watch over the
elderly**

**Know the
location of
every member**

Remember: Continuous communication among group members prevents getting lost and enhances safety

Safety While Using Vehicles

The vehicle is an essential means on hunting trips; use it carefully

Don't leave the vehicle running near seating areas

5

Watch for children and pedestrians around the vehicle

6

Don't park the vehicle in a way that obstructs others

7

Keep basic emergency equipment

8

Inspect the vehicle before the trip

1

Make sure there is enough fuel

2

Don't drive fast in sandy areas

3

Avoid reckless driving

4

Message: Safe driving is an important part of hunting season safety

Fire Prevention at Hunting Sites

Fire in open areas can spread quickly

Light fire in a safe place only

Keep heat away from dry grass

Don't leave fire unattended

Extinguish embers completely

Don't toss cigarette butts

Keep an extinguishing tool nearby

Report when you notice smoke or fire

Remember: Wind and dry grass can turn any spark into a spreading fire

Protection from Heat and Exhaustion

People may suffer dehydration in exposed areas

**Drink water
regularly**

**Avoid peak sun
hours**

**Wear suitable
clothing**

**Use a head
covering**

**Take rest
breaks in the
shade**

**Watch for signs
of fatigue**

**Stop when
severely
exhausted**

Message: Hydration and rest are an essential part of your safety while hunting

Safety in Changing Weather

Weather conditions can change quickly in desert areas

Monitor the weather before and during the trip

Avoid going out during warnings

Don't stay in valley channels

Beware of wind and dust

Secure equipment during winds

Leave when there is a clear danger

Follow official alerts

Remember: Following weather alerts protects you from unexpected risks

Protecting the Environment While Hunting

Safety includes preserving the environment and the site

**Don't leave
waste at the
site**

**Collect trash in
the bins**

**Don't damage
plants and
trees**

**Don't pollute
the soil and
water**

**Don't leave
glass or sharp
objects**

**Don't harm
wildlife**

**Leave the site
clean**

Message: A clean and safe site reflects the visitor's awareness and responsibility

What Do You Do When Lost or the Vehicle Breaks Down?

Stating your location precisely makes it easier to reach you

Stay calm

**Stay near the
last known
location**

**Contact the
group or 999**

**State your
location
precisely**

**Stay in a
visible, safe
place**

**Conserve
water and
device battery**

**Don't move
around
randomly**

Important Message: Stating your location precisely makes it easier to reach you when requesting help

First Aid and Requesting Help

Calm, organized action reduces the effects of an injury

Key Advice:

"Move the injured person away from the source of danger if it's safe, and don't move them if the injury is serious"

Carry a first aid kit

Notify the group immediately

State your location precisely

Call 999 in serious cases

Remember: Follow the emergency operator's instructions until help arrives

Do's and Don'ts During Hunting Season

Correct Practices and Others to Avoid

Don't ×

Don't hunt in prohibited areas

1

Don't leave fire or embers unextinguished

2

Don't move alone in remote areas

3

Don't leave children unsupervised

4

Don't leave waste at the site

5

Don't ignore fatigue or thirst

6

Don't ignore weather changes

7

Do ✓

Comply with laws and permits

1

Plan the trip before setting off

2

Tell someone your location and return time

3

Carry water and a first aid kit

4

Keep the site clean

5

Monitor the weather and alerts

6

Report any hazard immediately

7

Interactive Scenarios

Practical Application of What You've Learned

Scenario 2 The vehicle broke down in a remote area

Correct Action: Stay calm, state your location, contact the group, and don't move around randomly

Scenario 1 The wind started to intensify while you were at the site

Correct Action: Stop fire sources, secure the equipment, and follow official alerts

Scenario 4 One of the group members felt severe dizziness

Correct Action: Move them to the shade, give water if they're conscious, and request help if needed

Scenario 3 You noticed leftover embers before leaving the site

Correct Action: Extinguish the embers completely and make sure they're cool before leaving

Test Your Knowledge

Quick Questions to Assess Your Understanding

Q1: Why should you tell someone the hunting trip location?

Answer: To make it easier to reach you and request help in emergencies

Q2: Is it allowed to leave embers after finishing?

Answer: No, it must be fully extinguished before leaving

Q3: What do you do when the weather changes suddenly?

Answer: I follow official alerts and leave if the site becomes unsafe

Q4: Why must you stick to permitted hunting sites?

Answer: To protect people, the environment, and comply with the laws

Q5: What do you do when the vehicle breaks down in a remote area?

Answer: I state my location, stay in a safe place, and request help

Thank You

Safety during hunting season is everyone's responsibility

Comply with laws • Plan the trip • Don't move alone • Extinguish fire • In emergencies call 999

"A safe hunting season begins with the visitor's awareness and compliance with the instructions"
